## Projects

---

### Craft Connect

*Social Media App for Local Handicrafts*

This project aims to develop a social media app specifically tailored for artisans, craftsmen, and enthusiasts to showcase, promote, buy, and sell local handicrafts. The app will provide a platform for individuals passionate about preserving traditional crafts and connecting with a community of like-minded individuals.

## **Decentralized Real Estate Investment**

Decentralized Real Estate Investment Platform uses Solidity programming to tokenize property, enabling fractional investment. Smart contracts manage investments, dividends, and governance, ensuring transparency. It is designed using Html, CSS, Blockchain Technology and web3 is used to integrate backend with website

## **Gas Agency Management System**

The Gas Agency Management System is a software solution designed to streamline and enhance the operations of a gas distribution agency. In a world increasingly dependent on clean and efficient energy sources, the efficient management of gas distribution is crucial. This abstract provides an overview of the key features and benefits of the Gas Agency Management System.
